# Flexlock Invisible 2.0 LED

Mifare 13.56 MHz

Same lock as Flexlock Invisible 2.0 but even smarter with built-in LED which indicates a flashing light if the storage is available. By drilling a hole through the front of the door/drawer and installing the accompanying light guide, the light becomes visible from the outside. Available only for Mifare 13.56 MHz.
Locks for smarter, more convenient storage. Flexlock Invisible is installed on the inside of the unit and is never visible on the outside, giving your furniture a clean, stylish look. Flexlock Invisible can be installed in both new and existing storage solutions. The lock itself is supplemented by lock plates designed to suit a range of furniture types. The lock is battery powered and no external power supply is required. The lock is suitable for both standard and self-closing hinges.

- Installed out of sight on the inside of the unit
- LED indicates whether the storage unit is free
- Easy to service and administer
- Easy to adapt to the needs of the workplace
- Easy to install, easy to use
- Battery powered
- Can be fitted to drawers, cabinets, sliding doors and pull-out storage unit
- Can be programmed with various functions e.g. time limit.
